Jesus Said: "Let the little children come unto me:" and He took them in His arms and put His hands on them and blessed them.

Mark 10:14, 16

...Suffering Children are Safe in His Arms...

Casa Corazón is a 501c3 ministry of Mountville Mennonite Church. Our mission is to assist children from Honduras to come to The United States for life-saving/changing surgery that is not available to them in their country.

During their stay in The United States, the children are hosted by local families and are provided with donated services by local hospitals and physicians. Casa Corazón arranges for all of these services and oversees their care. When medically safe, the children are returned to their families in Honduras.
